

2018 KOVEA PRODUCT CATALOG

Lifestyle Camping

Camping is about making it your own. Design your campsite with your own personal touch, making it a place filled with your own personal flare. No more roughing it, a place like home.

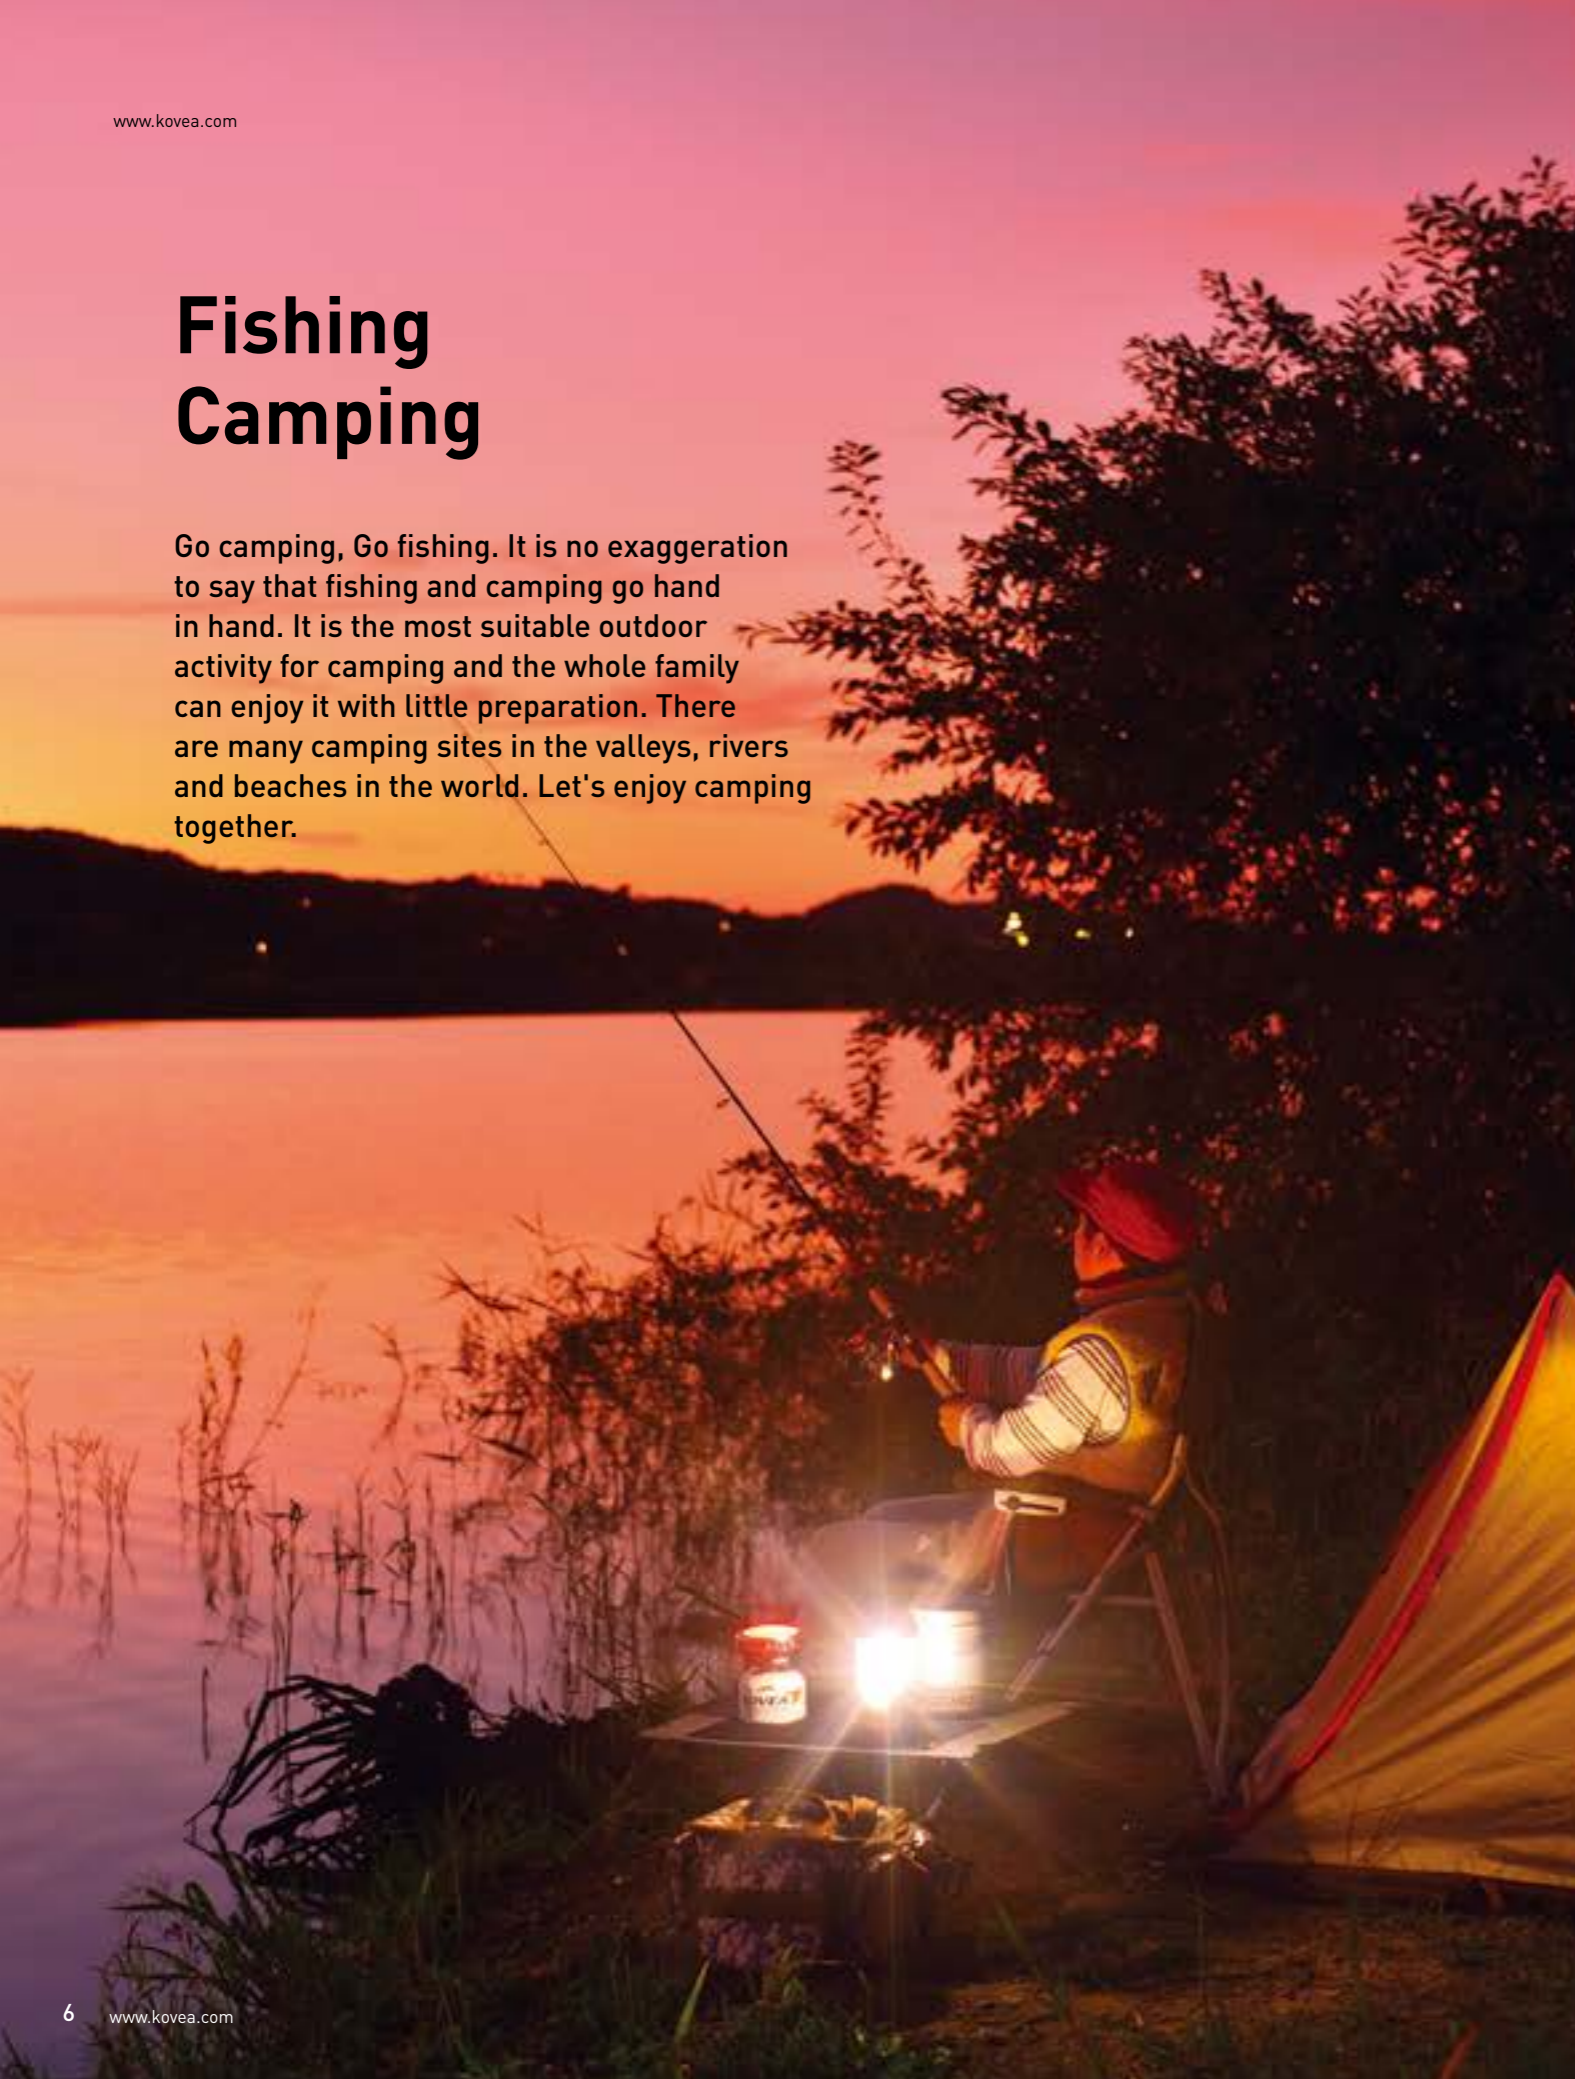

Alpine Camping

Go backpack and enjoy nature. As more and more people go out, camping expands its borders to endless limits. Let's share in the purity of nature and start backpacking with KOVEA.

Fishing Camping

Go camping, Go fishing. It is no exaggeration to say that fishing and camping go hand in hand. It is the most suitable outdoor activity for camping and the whole family can enjoy it with little preparation. There are many camping sites in the valleys, rivers and beaches in the world. Let's enjoy camping together.

Bicycle Camping

Go camp with your bicycle. Bike camping is the best way to get away from the paved road. You can feel the true journey on the road. It's the journey and travel that makes your trip exciting to the very end.

Overlanding

Wherever you can go camp with your car or off road vehicle. Compact and convenient Overlanding. More and more people want to journey outside the beaten path Outdoor activities and camping has been changing and Overlanding is becoming a new trend. Let's go camping with KOVEA.

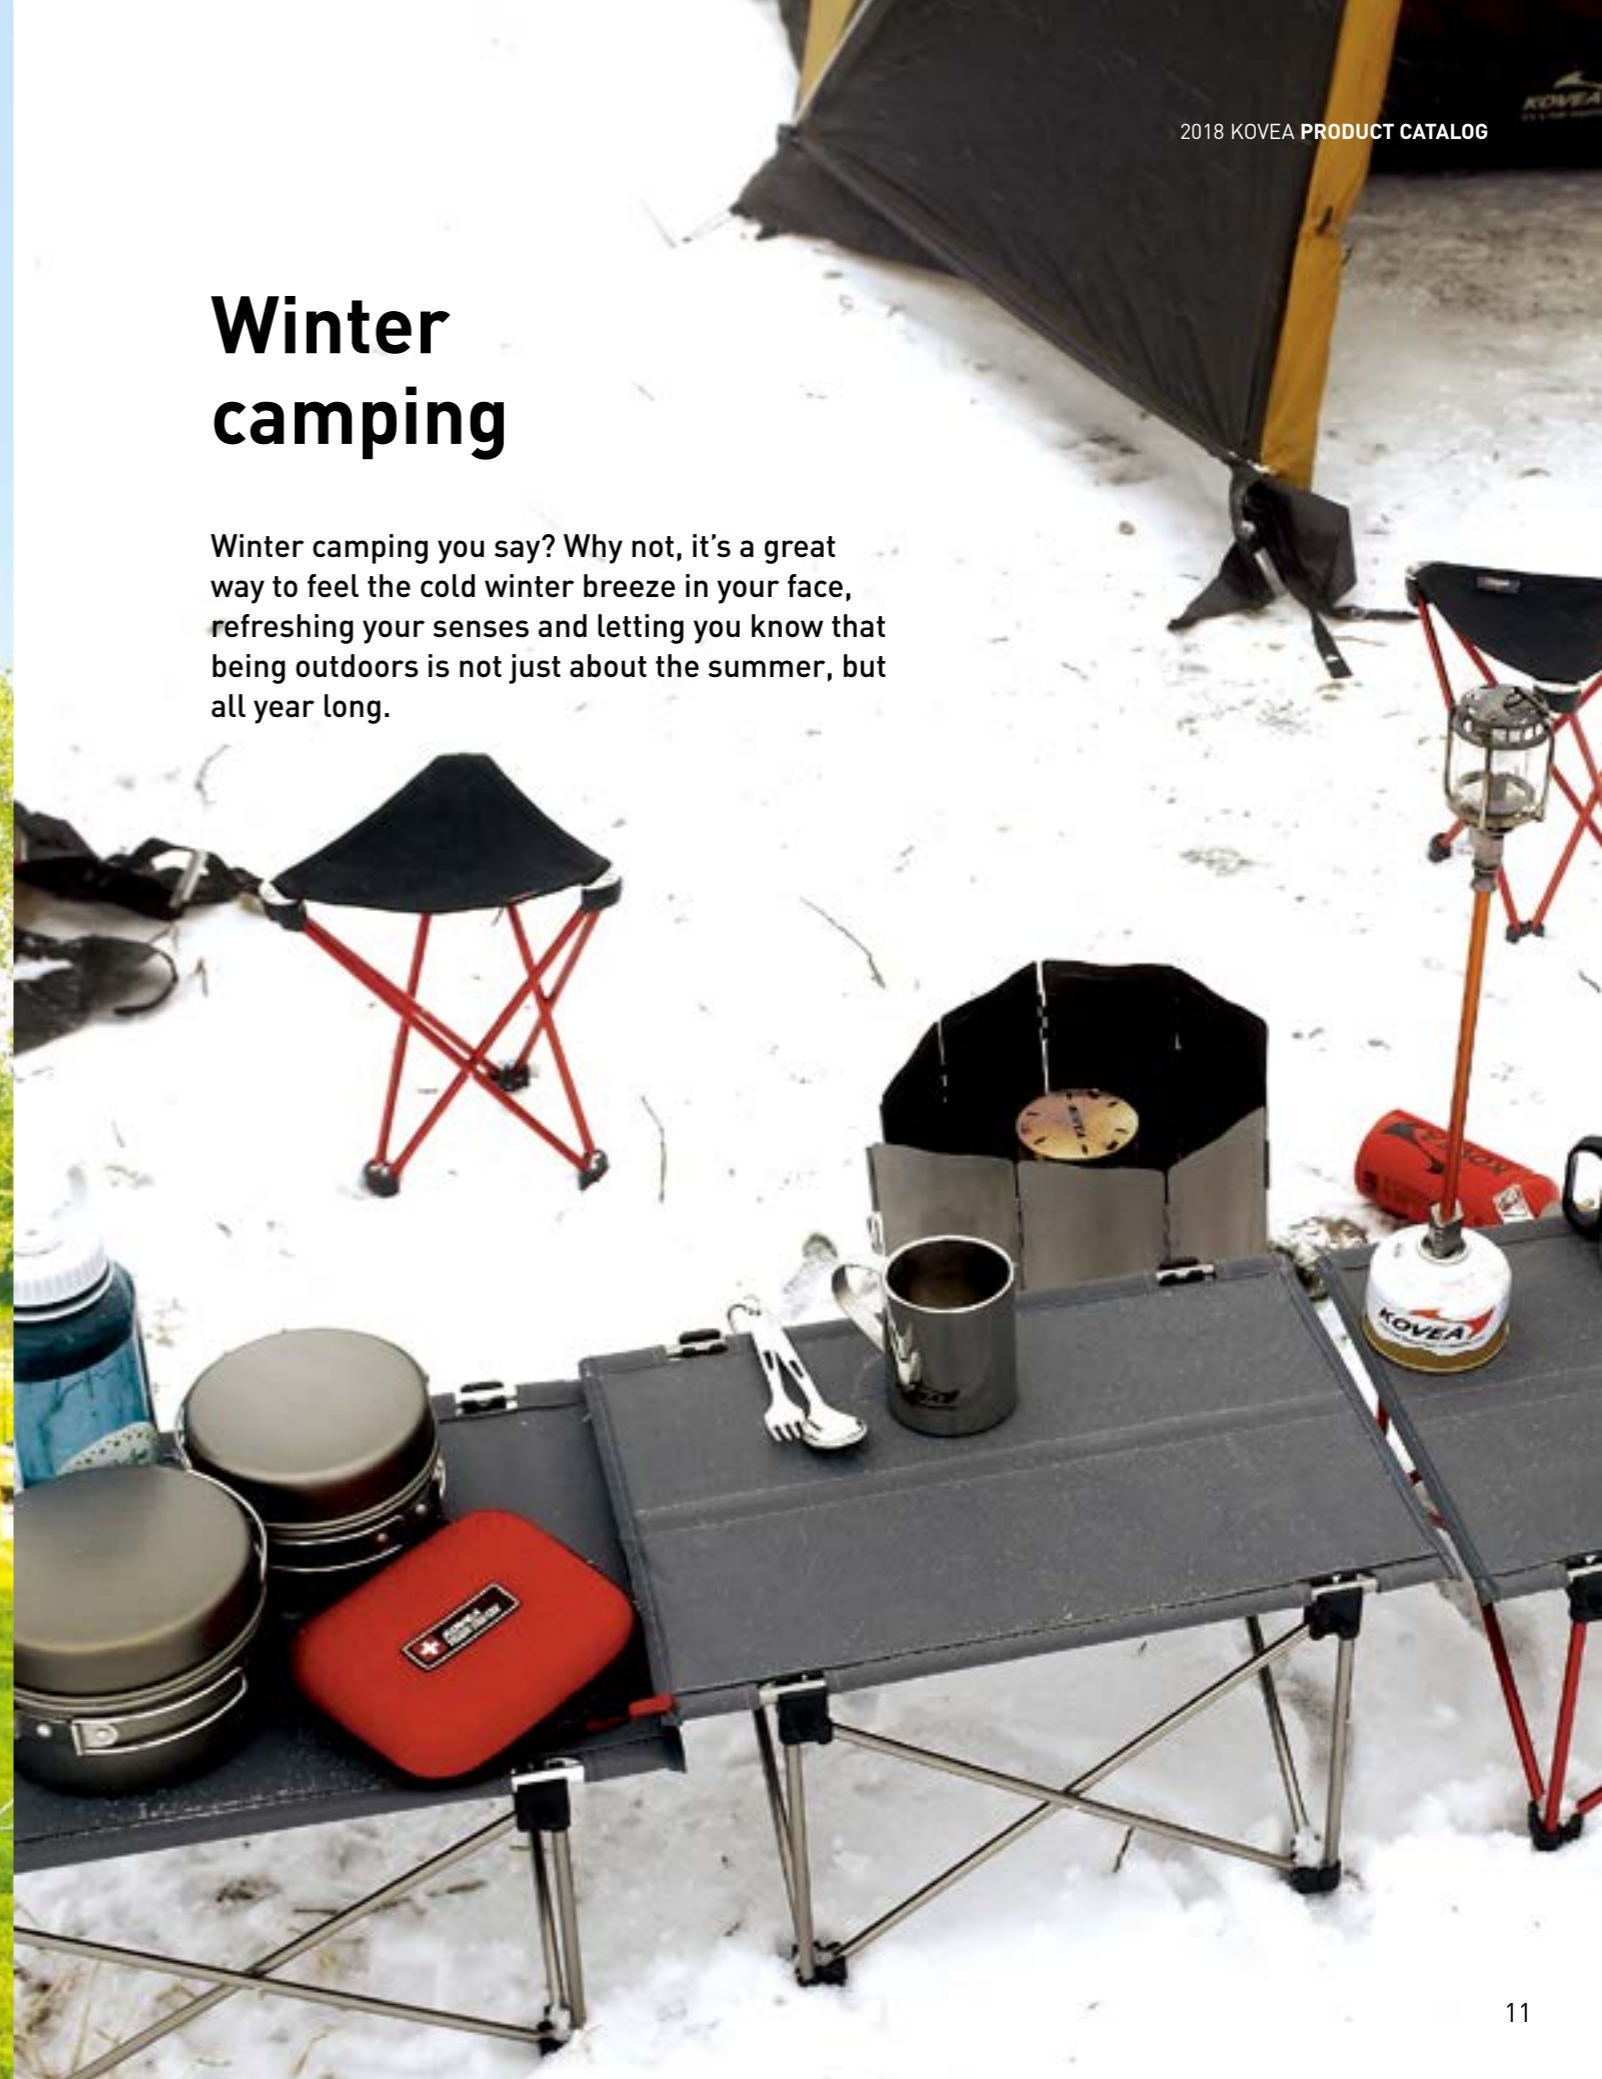

Summer camping

Waking up on a crisp summer morning while opening your tent to a wonderful display of the outdoors is the feeling you get when camping in the summer time.

Winter camping

Winter camping you say? Why not, it's a great way to feel the cold winter breeze in your face, refreshing your senses and letting you know that being outdoors is not just about the summer, but all year long.

TITANIUM KB-0101

This Titanium stove is recommended by outdoor experts. With a specialized burner head, adjustable valve to control fire power and an automatic igniter, this stove meets all your needs.

- D 67 X 38 X 81mm (Inner Box)
- W 88g
- F Iso-Butane (Screw Type Gas Canister)
- C 140g/h (1,656kcal / 6,572BTU / 1.93kW)

SUPALITE TITANIUM KB-0707

The Supalite Titanium is made of light and durable titanium, making it one of the world's lightest stoves. With its advanced functions, ergonomic designs, and high firepower mechanism, this stove is a must-have item for the outdoors. The specially designed burner head emits strong firepower, and the elaborate adjusting valve makes flame control easy.

- D 176 X 116 X 40mm (Inner Box)
- W 60g
- F Iso-Butane (Screw Type Gas Canister)
- C 162g/h (1,916kcal / 7,605BTU / 2.23kW)

BACKPACKERS TKB-9209-1

The Backpackers stove is ultra-light and compact. With durable, rustproof components and an adjustable flame control, this stove is ideal for solo campers. The folding pan supports ease in storage and portability. This signature stove has been around for over 25 years and has been a real trooper during that time.

- D 81 X 50 X 100mm (Inner Box)
- W 190g
- F Iso-Butane (Screw Type Gas Canister)
- C 160g/h (1,892kcal / 7,511BTU / 2.2kW)

SCORPION KB-0410

The Scorpion has been tried and tested for many years, one of our popular camping stoves, this stove has an attached windshield that keeps the flame intense and lessens heat loss during cooking or boiling. Added piezo ignition plate to help maximize ignition efficiency and an aluminum valve to reduce the overall weight. Wide pot supports to hold even the heaviest pots and pans for groups and individuals.

- D 98 X 98 X 92mm (Inner Box)
- W 163g
- F Iso-Butane (Screw type Gas canister)
- C 133g/h (1,573kcal / 6,246BTU / 1.83kW)

SCOUT TKB-8911-1

The Scout is small and compact in size. The head and valve are easy to use. By expanding the auxiliary legs, the stove can safely accommodate a larger container.

- D 122 X 100 X 125mm (Inner Box)
- W 290g
- F Iso-Butane (Screw Type Gas Canister)
- C 160g/h (1,892kcal / 7,511BTU / 2.2kW)

HIKER KB-0408

The Hiker gas stove is small but has strong fire power in comparison to the size of the burner head, which evenly distributes firepower. The ignition plate makes lighting easy and maximizes power. A convenient ignition button is built into the lightweight aluminum valve.

- D 96 X 88 X 90mm (Inner Box)
- W 232g
- F Iso-Butane (Screw Type Gas Canister)
- C 148g/h (1,751kcal / 6,948BTU / 2.04kW)

EAGLE KB-0509

This Eagle stove is ultra-light and compact. It has durable, rustproof components and an adjustable flame control. The folding pan supports ease in storage. This stove is ideal for backpacking, camping and mountaineering.

- D 57 X 57 X 100mm (Inner Box)
- W 105g
- F Iso-Butane (Screw Type Gas Canister)
- C 128g/h (1,514kcal / 6,012BTU / 1.78kW)

FIREMAN KB-0808

The Fireman literally hoses down the rest of its competition. This UL backpacking stove comes with an aluminum die casting body which significantly reduces its weight, along with adjustable pot supports that bring its folding size to a minimum. The unique spreader pot supports allows the flame to even disperse over the pot or pan during cooking giving an even amount of heat. Great simmering controls for all types of cooking.

D 54 X 54 X 100mm (Inner Box)
 W 87.5g
 F Iso-Butane (Screw Type Gas Canister)
 C 160g/h (1,892kcal / 7,511BTU / 2.2kW)

MAXIMUM TKB-9901

The Maximum is in a class of its own, this very unique designed stove is ideal for those who want to do more than just boil water outdoors. This stove was designed for use with the 220g nozzle type gas canisters. An easy to install mechanism allows this stove to be used in an instant. Our patented 1 touch adaptor optimizes the ease of use. Made of aluminium it is very lightweight compared to the other gas ranges that use this type of gas.

D 93 X 79 X 115mm (Inner Box)
 W 267g
 F Butane (Nozzle type gas canister)
 C 140g/h (1,656kcal / 6,574BTU / 1.92kW)

FLAME TORNADO KB-N1005

The Flame Tornado with its powerful output of over 7,000 BTUS, helps the UL backpacker when in need of a quick boil. Body made of aluminium die casting, brings down the weight and helps reduce over size with the folding pot supports. A separate piezo ignitor is included so no matches or lighters are required.

(Not available in the United States and European countries, please inquire about availability)

D 113 X 113 X 89mm (Inner Box)
 W 80g
 F Iso-Butane (Screw type Gas canister)
 C 150g/h (1,775kcal / 7,000BTU / 2.06kW)

Winding down after a nice day of hiking in the hills south of Seoul, decided to have a nice cup of coffee while enjoying the scenery at our campsite. Its always nice to enjoy time together chatting about the days events.

HYDRA KGB-1305

Most innovative product yet. Not only is this stove both Iso Butane and White Gasoline compatible, but you don't have to change any nozzles when switching fuels. Designed to prime the fuel before it reaches the head, this stove drastically reduces the noise where others have failed.

- D 297 X 266 X 97mm (Inner Box)
- W 310g
- F White gasoline, Iso-Butane (Screw type Gas canister)
- C White gasoline - 209ml/h (1,860kcal / 7,380BTU / 2.16kW)
- Iso-Butane -131g/h (1,550kcal / 6,150BTU / 1.8kW)

BOOSTER+1 KB-0603

The Booster+1 with its powerful output have the best of both worlds with the versatile and easy-to-operate Booster+1 stove. Use either butane gas or white gasoline, without exchanging nozzles. The pot supports and legs are connected by an ingenious gearing system which allow them to fold and unfold simultaneously. Best used all year round in any weather.

- C 140g/h (1,656kcal / 6,572BTU / 1.93W)

BOOSTER DUALMAX KB-N0810

The Booster Dual Max has foldable legs to support the pot safely, saving volume for better storage and portability. The air shutter controls the oxygen rate depending on different fuels. The stove head has direct flame holes. The separate nozzle cleaning pin is included to aid in clogging maintenance after use.

- D 125 X 90 X 68mm (Stove)
- W 340g
- F White gasoline, Iso-Butane (Screw type Gas canister)
- C White gasoline : 246ml/h (2,184kcal / 8,666BTU / 2.54kW)
- Gas : 123g/h (1,455kcal / 5,774BTU / 1.69kW)

CAMP-5 KB-1006

This Camp-5 stove prevents liquefaction by using copper pipes. The flame is highly efficient and is concentrated in the center. Pot supporter and legs move simultaneously and comfortably to accommodate various types.

- D 58 X 58 X 127mm (Inner Box)
- W 156g
- F Iso-Butane (Screw Type Gas Canister)
- C 146g/h (1,725kcal / 6,857BTU / 2.00kW)

MOONWALKER KB-0211G

The Moonwalker has a double wall pipe, anti-flare system design doubly preventing cumbersome liquefaction. Its foldable legs allow for stability and compact storage. This stove uses a small flame control, making it more lightweight. The gas heating systems directs the gas pipe to pass through the stove, keeping it warm and efficient in colder temperatures.

- D 118 X 103 X 92mm (Inner Box)
- W 291g
- F Iso-Butane (Screw type Gas canister)
- C 140g/h (1,656kcal / 6,572BTU / 1.93kW)

SPIDER KB-1109

The Spider is one of our best-selling stoves. It has an anti-flame system pipe that provides a powerful and stable flame. The foldable pan support legs and lower balance enhances the stove's safety.

- D 106 X 94 X 46mm (Inner Box)
- W 170g
- F Iso-Butane (Screw Type Gas Canister)
- C 120g/h (1,420kcal / 5,633BTU / 1.65kW)

EXPEDITION TKB-N9703

The Expedition has a double-pipe, anti-flare system to prevent liquefaction and gas flaring. The ignition plate makes ignition easy and maximizes power, as wind breakers operate the pot supports. Foldable legs provide stable support for larger cooking pans. This stove is especially durable with its fluorine hose and stainless rustproof components.

- D 140 X 90 X 145mm (Inner Box)
- W 379g
- F Iso-Butane (Screw Type Gas Canister)
Butane (Nozzle type gas canister)
- C 140g/h (1,656kcal / 6,572BTU / 1.93kW)

DUAL FLAME KGB-1302

The Dual Flame has a very unique flame head design which emits 2 different flames on a larger burner head. This large flame base in 2 different directions is ideal for the backpacker / camper who wants to do more than just boil water. An even flame dispersion does not burn the pot / pan in one area and allows for an even cooking surface.

- D 110 X 77 X 134mm (Inner Box)
- W 230g
- F Iso-Butane (Screw Type Gas Canister)
- C 140g/h (1,656kcal / 6,572BTU / 1.93kW)

ALPINE POT EZ-ECO KGB-1410

The Alpine Pot EZ Eco is exactly what you see. An Alpine Pot stove system with the fuss of carrying a fuel canister. This new innovative system has a built in fuel base which allows you to fill it with gas before you go out on your trip, no more fuss of taking the fuel with you for those short 1 day hikes. A pot without the fuel canister saves space and weight and can boil 500 ML of water up to 6 times on 1 full charge. An adapter is included for use of both nozzle type and screw type gas canister.

- D 130 X 130 X 200mm (Inner Box)
- W 770g
- F Butane & Iso-Butane (Refillable gas tank)
- C 51.3g/h (607kcal / 2,410BTU / 0.7kW)
- Cc 1,100ml (gas capacity : 27g)

GOLD WINNER

HANDY SUN KGH-1609

The Handy Sun is our newest, smallest and lightest heater in our product line. This small heater is great for trips where it gets a bit cold and you need something to warm you up.

- D 158 x 158 x 195mm
- W 197g
- F Iso-Butane (Screw type gas canister)
- C 60g/h (710kcal / 2,817BTU / 0.82W)

GIGA SUN KGH-1310

The Giga Sun Heater has a distinct yet modern look of an old circular furnace, where instead of coal or wood, the gas emits heat in a 360-degree radius. It has a built in safety feature that automatically shuts itself off if it tilts or tips over, or when carbon monoxide levels gets too high. Great for camping and overlanding with its great power, zzzcompact size compared to other rotary heaters available on the market.

- D 385 X 385 X 580mm (Inner Box)
- W 6kg
- F Propane Gas
- C 500g/h (6,000kcal / 23,800BTU / 6.97kW)

TABLE HEATER KH-1009

The Table Heater has strong firepower with a large fire outlet. The detachable reflection plate allows for 360 degree heating. The power booster prevents the gas canister from cooling down and improves evaporation. Noise is minimized by using a double layer nozzle. This heater is easy to light with its auto-ignition system. Finally, the leg design ensures safety and easy placement onto a table.

- D 180 X 180 X 252mm (Inner Box)
- W 1.368kg
- F Iso-Butane (Screw type Gas canister)
- C 128g/h (1,514kcal / 6,012BTU / 1.76kW)

CUPID KH-1203

The Cupid heater is ideal for those camping trips where it may get a little chilly at night. This heater emits a strong amount of heat from its ceramic heating pad and is small enough to carry around for those 2 person camping trips.

- D 175 X 140 X 270mm (Inner Box)
- W 1.4kg
- F Butane (Nozzle Type gas canister)
- C 71g/h (840kcal / 3,333BTU / 0.98kW)

POWER SENSE KH-2006

The Power Sense heater is perfect for those times when you need heat to warm yourself up, whether it be in the garage or on the patio, it emits enough heat to keep you nice and toasty.

- D 255 X 227 X 245mm (Inner Box)
- W 1.4kg
- F Butane (Nozzle Type gas canister)
- C 75g/h (887kcal / 3,522BTU / 1.03kW)

FIREBALL KH-0710

The Fireball has a hose-type gas canister connection for ease and safety. The mesh based heating system provides radial heat for the camper / backpacker. The heating pipe helps to stabilize the firepower and the large bulb increases power. The reflector turns 45 degrees for added convenience. Heating pipe attached to the output to allow for better gas efficiency. Hose type gas canister connection allows for easy access to gas valve.

- D 190 X 180 X 190mm (Inner Box)
- W 565g
- F Iso-Butane (Screw type Gas canister)
- C 66g/h (781kcal / 3,100BTU / 0.91kW)

Lantern & Heater

LITTLE SUN KH-0203

The Little Sun name says it all. This heater emits a heat via its ceramic plate and can be used in the garage or on your patio. Great for keeping you warm in places where heat is not accessible.

- D 275 X 190 X 320mm (Inner Box)
- W 2.1kg
- F Butane (Nozzle Type gas canister)
- C 120g/h (1,420kcal / 5,636BTU / 1.65kW)

Enjoying a nice day out grilling on our portable BBQ grill is all we need to have a nice time with the family and enjoy the great taste of the outdoors.

MAGIC I UPGRADE STAINLESS BBQ

KCG-0712

The Magic I is a very compact BBQ grill perfect for small groups, you can take this anywhere with its nice carry bag and stainless steel frame. It folds and unfolds nicely and stores away in small spaces.

D 360 X 50 X 200mm (Inner Box)
W 1.83kg

MAGIC II UPGRADE STAINLESS BBQ

KCG-0901

The Magic II is a very compact BBQ grill perfect for bigger groups, you can take this anywhere with its nice carry bag and stainless steel frame. It folds and unfolds nicely and stores away in small spaces.

D 500 X 20 X 200mm (Inner Box)
W 2.5kg

MAGIC III UPGRADE STAINLESS BBQ

KCG-1503

The Magic III is a new addition to the already wide range of compact and portable BBQ grills. This larger addition is great for family picnics anywhere you go. Whether it be at the beach or tailgating at the game, its perfect for cooking on the go.

D 470 X 60 X 275mm (Inner Box)

S4 CAM SET

(Oval K St Carabiner included)

S4 CAM S4-0.5-4

The type 4 Cam is a perfect fit for small cracks due to its bisymmetrical rotating structure which provides easy setting and hard to walk out of cracks.

Material	AL7075
Range	10.5-14.5 / 13-18 / 16-22.5 / 19.5-28.5 / 25-35.5 mm
Weight	54 / 61 / 63 / 71 / 76 g
Strength	7 / 7 / 10 / 10 / 10 kN

FLEX TFF-01-10

The Flex is basic and simple structure designed cam which to ensure safe security in any cracks.

Material	(TFF-01-04) AL7075 / (TFF-05-10) AL6061
Range	14-19 / 18-23 / 21-27 / 24-34 / 31-42 / 37-55 / 48-68 / 57-86 / 75-105 / 94-136 mm
Weight	76 / 77 / 79 / 84 / 121 / 136 / 153 / 190 / 271 / 353 g
Strength	10 / 10 / 10 / 10 / 12 / 12 / 12 / 12 / 12 / 12 kN

NEW FLEX TNF-01-09

The New Flex is a simple independent 4 Cam structure to provide easy setting and perfect fit in any type of cracks.

Material	(TNF-01-04) AL7075 / (TNF-05-09) AL6061
Range	10-17 / 13-21 / 17-27 / 20-33 / 26-44 / 33-55 / 42-69 / 53-86 / 65-107 mm
Weight	58 / 60 / 73 / 81 / 121 / 128 / 148 / 182 / 233 g
Strength	7 / 7 / 10 / 10 / 12 / 12 / 12 / 12 / 12 kN

BALLNUTZ SET

(Oval K St Carabiner included)

BALLNUTZ TBN-01-05

Items #1-#5 can be used for narrow crack from 3.7mm to 17.5mm and possible to set up micro crack that other camming unit can not be set.

Material	AL6061 + STS304
Range	3.7-6.4 / 4.8-9.0 / 6.1-11.6 / 7.8-13.8 / 10.3-17.5 mm
Weight	31 / 39 / 49 / 58 / 73 g
Strength	7 / 8 / 8 / 8 kN

CALM HMS LOCK TCHK-02

Large HMS type carabiner and spring gate prevents carabiner from turning around not to weigh on one side when secured.

Material AL7075
Size Ø12 x 114 x 74 mm
Weight 88 g
Strength Major 27 kN / Minor 8 kN / Open 7 kN

CE
0120

HMS K LOCK TCHK-01

Designed with Wide D-shape curve on the opposite side of gate that could install directly to wide belay anchor.

Material AL7075
Size Ø12 x 120 x 75 mm
Weight 92 g
Strength Major 27 kN / Minor 8 kN / Open 7 kN

MD K LOCK TCDK-01 / MD K BT TCDK-02 / MD K ST TCDK-03

Most favorite item for safety and climbing device.

Material AL7075
Size Ø10 x 100 x 55 mm
Weight 54/ 48/ 48 g
Strength Major 26 kN / Minor 8 kN / Open 7 kN

CE
0120

BEAK K LOCK TCDK-14 / BEAK K BT TCDK-15 / BEAK K ST TCDK-16

Realize ultra-light weight by hot forging technology.

Material AL7075
Size Ø10 x 101 x 58 mm
Weight 51/ 45/ 45 g
Strength Major 24 kN / Minor 8 kN / Open 8 kN

CE
0321

MIGHTY K LOCK TCHK-30

30 kN of high tensile strength carabiner for using climb, rescue and industry.

Material AL7075
Size Ø11 x 112 x 72 mm
Weight 76 g
Strength Major 30 kN / Minor 9 kN / Open 8 kN

CE
0321

HMS TRIPLE K NOCK TCHK-T01

Triple key lock keeps you safe by use automatic lock structure gate.

Material AL7075
Size Ø11 x 112 x 73 mm
Weight 83 g
Strength Major 24 kN / Minor 8 kN / Open 8 kN

CE
0321

BEAM K LOCK TCDK-13 / BEAM K BT TCDK-09 / BEAM K ST TCDK-10

Realize ultra-light weight by hot forging technology.

Material AL7075
Size Ø10 x 98 x 57 mm
Weight 46/ 41/ 41 g
Strength Major 24 kN / Minor 8 kN / Open 8 kN

CE
0321

PRODUCT

TINY TRIPLE LOCK TCOK-T01 / TINY LOCK TCOK-03 / TINY ST TCOK-04

Bisymmetrical structure can make one line in the middle when connecting gears on both sides.

Material AL7075
Size Ø11 x 98 x 61 mm
Weight 71/ 66/ 59 g
Strength Major 24 kN / Minor 8 kN / Open 7 kN

CE
0120

OVAL K LOCK TCOK-02 / OVAL K ST TCOK-01

Bisymmetrical structure can make one line in the middle when connecting gears on both sides.

Material AL7075
Size Ø11 x 107 x 60 mm
Weight 73/ 66 g
Strength Major 24 kN / Minor 8 kN / Open 7 kN

CE
0120

BIG D K LOCK TCDK-08 / BIG D K ST TCDK-07

The gate is wider and larger than MD type carabiner which comfortable to bring devices and slings with gloved hands.

Material AL7075
Size Ø11 x 115 x 67 mm
Weight 75/ 69 g
Strength Major 28 kN / Minor 8 kN / Open 7 kN

CE
0120

MD W/ST TCD-06

Wired gate is easier to clip rope than other carabiners also can be used to when hard condition as like frozen soil stuck to gate.

Material AL7075
Size Ø10 x 99 x 56 mm
Weight 43 g
Strength Major 24 kN / Minor 8 kN / Open 7 kN

CE
0120

BEAM W/BT TCD-11 / BEAM W/ST TCD-12

Minimize weight by combination of hot forging technology and wired gate.

Material AL7075
Size Ø10 x 98 x 57 mm
Weight 34 g
Strength Major 25 kN / Minor 8 kN / Open 9 kN

CE
0321

SPINE W/BT TCD-13 / SPINE W/ST TCD-14

Feather light carabiner by hot forging technology.

Material AL7075
Size Ø9 x 90 x 53 mm
Weight 30 g
Strength Major 24 kN / Minor 8 kN / Open 8 kN

CE
0321

New!
PRODUCT

SOX STEEL LOCK TCOK-S02

This is high-strength steel carabiner which minimize damage caused by friction.

Material SCM435
Size Ø10 x 108 x 61 mm
Weight 183 g
Strength Major 30 kN / Minor 15 kN / Open 10 kN

CE
0321

New!
PRODUCT

QUICK LINK ST08 TCQ-ST08

This is used for securing to the pitch point with high-strength steel carabiner.

Material STS 316
Size Ø8 x 75 x 40 mm
Weight 79 g
Strength Major 40 kN / Minor 10 kN

CE
0321

TOUGH QUICKDRAW SET K 12 TAG-TSK-12
TOUGH QUICKDRAW SET K 17 TAG-TSK-17 CE

Apply high strength nylon 66 webbing for excellent durability and outstanding strength.

Material Nylon 66 + AL7075
 Size Length - 12 cm, 17 cm / Width - 25 mm
 Weight 117 g / 123 g
 Strength 22 kN

DYNEEMA QUICKDRAW SET K 12 TAG-11DSK-12
DYNEEMA QUICKDRAW SET K 17 TAG-11DSK-17 CE

Apply Dyneema webbing for excellent durability and outstanding strength.

Material Dyneema + AL7075
 Size Length - 12 cm, 17 mm / Width - 12 mm
 Weight 102 g / 108 g
 Strength 22 kN

BEAM W/QUICKDRAW SET 12 TAG-WS-12
BEAM W/QUICKDRAW SET 17 TAG-WS-17 CE

Ultra-light quickdraw set by combination of hot forged carabiners and dyneema webbing.

Material Dyneema + AL7075
 Size Length - 12 cm, 17 mm / Width - 12 mm
 Weight 74 g / 80 g
 Strength 22 kN

SPINE W/QUICKDRAW SET 12 TAG-SP-12
SPINE W/QUICKDRAW SET 17 TAG-SP-17 CE

Feather light quickdraw set by combination of hot forged light & small size carabiners and dyneema webbing.

Material Dyneema + AL7075
 Size Length - 12 cm, 17 mm / Width - 12 mm
 Weight 66 g / 72 g
 Strength 22 kN

ASCENDER TAG-09L / TAG-09R CE

Provides great performance for braking power with built-in hole cam which can easily remove foreign substances while climbing.

Material AL7075 + EPDM + STS420J2 + Elastomer
 Rope Diameter 8-13 mm
 Weight 208 g
 Strength 4 kN

MOOR TAG-03

Multi-purpose belay device which can be use to lead and second belay.

Material AL6061
 Rope Diameter $\text{O} \geq 9 \text{ mm}$, $\text{O} \geq 8.3 \text{ mm}$, $\text{O} \geq 7.8 \text{ mm}$
 Weight 69 g

Vergo 28622 CE

VERGO is the assisted-braking device which works by the pulling strength of rope. Rope is not crooked when it brakes, furthermore smooth feeding doesn't damage the rope.

Material AL + STS
 Rope Diameter $\text{O} 8.9-10.7 \text{ mm}$
 Weight 195 g

FIGURE 8 TAG-01-1

Fluid appearance for outstanding tensile strength and durability.

Material AL7075
 Rope Diameter $\text{O} 8.9-12 \text{ mm}$, $\text{O} \text{O} 8-11 \text{ mm}$
 Weight 140 g
 Strength 3,500 kg

PYRTAMID TAG-02

Small and light belay device which has outstanding durability.

Material AL2024
 Rope Diameter $\text{O} 8.9-12 \text{ mm}$, $\text{O} \text{O} 8-11 \text{ mm}$
 Weight 70 g

TOUGH BIND TAG-B25

Material Elastomer
 Quantity 1 set / 10ea

QUICKDRAW BIND TAG-B12B

Material Elastomer
 Quantity 1 set / 10ea

TOUGH QUICKDRAW SLING 12/17 CE

Material Nylon 66
 Size Length - 12 cm, 17 cm / Width - 25 mm
 Weight 21 g / 27 g
 Strength 22 kN

DYNEEMA QUICKDRAW SLING 12/17/22 CE

Material Dyneema
 Size Length - 12 cm, 17 mm, 22 mm / Width - 12 mm
 Weight 6 g / 12 g / 18 g
 Strength 22 kN

RAPTOR TIT-1008

Ultra-light ice tool designed for expert climber, competition, high level climbing, etc. Comfortable covered dual grip makes variable stroke angle, efficiently movement, prevent hands hit to ice.

Material 17-4PH + SCM435 + AL7075 + EPDM
 Size 49 cm
 Weight 598 g (643 g with weight)

NEW SCORPION TIT-16

Manufactured harmonize-curved shape shaft, pick angle and different thickness of pick tip provide best performance.

Material STS420J2 + SCM435 + AL7075 + EPDM
 Size 52 cm
 Weight 660 g

ALPINIST PICKEL 70 / 75 / 80 / 85 / 90

TIP-01-70 / TIP-01-75 / TIP-01-80 / TIP-01-85 / TIP-01-90

Be useful for walking & climbing in deep snow, overseas expedition, glacier. SCM steel head and 7075 aluminum shaft for light weight, outstanding strength, durability and long lifespan.

Material SCM435 + AL7075
 Size 70 cm / 75 cm / 80 cm / 85 cm / 90 cm
 Weight 640 g / 650 g / 660 g / 670 g / 680 g

HYPER GUIDE TIC-05

Hinged type crampon allowed to have more flexible motion and easy identify left and right.

Material SCM435
 Size Free
 Weight 1,280 g

HYPER HARPOON TIC-06

Designed for intermediate and expert users to high level ice or mixed climbing.

Material SCM435
 Size Free
 Weight 1,110 g

X-CROSS 6 PEAK KE-0210

For maximize comfort, apply X-Cross webbing which designed for stabilize while long term use. (Registration of utility model : No. 299027, Registration design : No. 334303)

Material S50C
 Size Free
 Weight 492 g

ZIPPY TIPT-IS-18

Optimized as a drill form made of stainless steel so it makes quick-screwing when it starts screwing first.

Material STS420 + AL7075 + ABS
 Size 18 cm
 Weight 157 g

RAPID 12/ 17/ 22 TIPT-IS-12/ 17/ 22

Optimized of drill shape with stainless steel material screw designed for the situation of quick installation.

Material STS420 + AL7075
 Size 12 cm / 17 cm / 22 cm
 Weight 133 g / 161 g / 182 g

SICURO THG-12

SHELL(ABS) absorbs shocks and firmly designed to be protective. With dial adjusting device, you can adjust size quickly and wear helmet in stable. Designed in concave shape back of shell minimizes the inconvenience caused by carrying a backpack while climbing.

Material	ABS
Size	53-62 cm
Weight	364 g
Color	Mustard, Cyan, Red

COMET THG-11

The first developed sunglass equipped helmet in the world. Best quality UV-Protection film coated sunglass has made from polycarbonate that has outstanding shock resistance and wear resistance. Protects eyes from ice shard when ice Neat design, excellent ventilation climbing and keep clear sight and protect from direct sun light.

Material	PC + EPS
Size	53-64 cm
Weight	300 g
Color	Darkgray, Orange

ZENITH THG-10

Lighter than ABS type helmet(265g) which guarantee comfort and stabilization.

Material	PC + EPS
Size	53-64 cm
Weight	265 g
Color	Gray, Green, Yellow

CYCLOID CHAIN TAG-BCD12-125

Belay Chain for Self secure attach to harness.

Material	Dyneema
Size	Length - 125 cm / Width - 12 mm
Weight	106 g
Strength	End to end - 22 kN / Individual loop - 22 kN

DYNEEMA DAISY CHAIN 85/105

TAG-14D-2 / TAG-14D-1

Self-secure chain connect to climbing harness.

Material	Dyneema
Size	Length - 85 cm, 105 cm / Width - 12 mm
Weight	42 g / 53 g
Strength	End to end - 22 kN / Individual loop - 2 kN

NYLON DAISY CHAIN TAG-BCN15-105

Light, strong and easy to carry with high strength nylon webbing.

Material	Nylon 66
Size	Length - 105 cm / Width - 15 mm
Weight	94 g
Strength	End to end - 22 kN / Individual loop - 2 kN

15"/30" ALPINE EQUALIZER

TAG-27D-01 / TAG-27D-02

Outstanding shock absorption also can make safe belay by equally disperse strenght on belay point.

Material	Dyneema
Size	Length - 15", 30" / Width - 12 mm
Weight	62 g / 97 g
Strength	End to end - 22 kN

DYNEEMA LOOP SLING 30 / 60 / 90 / 120

TAG-10D-30 / TAG-10D-60 / TAG-10D-90 / TAG-10D-120

Help more smooth rope flow connecting to belay anchor and easy to make equalizing two belay point.

Material	Dyneema
Size	Length - 30 cm, 60 cm, 90 cm, 120 cm / Width - 12 mm
Weight	14 g / 22 g / 34 g / 43 g
Strength	22 kN

NYLON LOOP SLING 30 / 60 / 90 / 120

TAG-SLN15-30 / TAG-SLN15-60 / TAG-SLN15-90 / TAG-SLN15-120

Help more smooth rope flow connecting to belay anchor and easy to make equalizing two belay point.

Material	Nylon 66
Size	Length - 30 cm, 60 cm, 90 cm, 120 cm / Width - 15 mm
Weight	28 g / 44 g / 69 g / 91 g
Strength	22 kN

PRODUCT

CE
0120

JOYCL THJ-02

Designed to fit for kids and children's sports climbing and comfy even for long hours thanks to ergonomic design.

Material AL7075 + Nylon
Size S (22"-27"), M (25"-30")
Weight 210 g (small-size standard)

CE
0120

MOUNTAIN WALL TH-0901

For more safe and comfort, wide padded waist and leg belts are connected with double belay loop.

Material AL7075 + Nylon + Cordura
Size S-M (23"-30"), L-XL (31"-38")
Weight 522 g (small-size standard)

CE
0120

VINCENTØ TH-N01-2

OSFA(One Size Fits All) harness designed for middle level climbers.

Material AL7075 + Nylon+ Cordura
Size OSFA (24"-36")
Weight 460 g

FULL BODY TH-04

CE
0120

Best for rock climbing beginner, rescue, industrial & safety works.

Material AL7075 + Nylon + Cordura
Size OSFA (24"-36")
Weight 767 g

HOLLIS THS-01

CE
0120

Multi-purposed full body harness by separating upper body part to lower body part, which approved according to the European standards EN358, EN361, EN813.

Material AL7075 + AL6066 + Nylon + Cordura + Polyester
Size OSFA (26"-38")
Weight 2,058 g

CE
0120

VERTICAL TH-01

Most popular OSFA(One Size Fits All) lightweight harness for all body type.

Material AL7075 + Nylon + Cordura
Size OSFA (24"-36")
Weight 424 g

CE
0120

LIBERTY TH-08

Designed for best performance against variable climbing action, absorption/dispersion of falling shock.

Material AL7075 + Nylon + Cordura
Size S-M (23"-30"), L-XL (31"-38")
Weight 402 g (small-size standard)

CE
0120

GRAVITY TH-N02

Segmented sizes from S to XL for any user and reduced the belt weight.

Material AL7075 + Nylon + Cordura
Size S (23"-26"), M (27"-30")
L (31"-34"), XL (35"-38")
Weight 350 g (small-size standard)

SAFE-RACK THZ-119

CE
0120

Full body type harness designed for user's safety while any type of works by applying 4 loops (1 front, 1 back, 2 waist) and 3 belay loops (2 front, 1 back)

Material AL7075 + Nylon + Cordura
Size S-M (23"-30"), L-XL (31"-38")
Weight 1,261 g (small-size standard)

HALF TH-06

Able to use as emergency belt in danger zone while ridge climbing.

Material AL7075 + Nylon + Cordura
Size OSFA (24"-36")
Weight 267 g

SAFE-ZIP THZ-219

CE
0120

Full body type harness designed for user's safety while variety outdoor activity or industrial works by applying 1 loop (1 back) and double belay loops(2 front, 2 back).

Material AL7075 + Nylon + Cordura
Size S (18"-26"), M (27"-35"), L (36"-44")
Weight 1,051 g (small-size standard)

CHEST TH-07

CE
0120

Prevent hanging upside down while ridge or rock climbing, etc.

Material AL7075 + Nylon
Size OSFA (31"-45")
Weight 260 g

MAIN CHAIN THZ-02

High strength belay chain for rope secure or heavy baggage lifting temporarily.

Material AL7075 + Polyester
Size Length - 20-150 cm / Width - 45 mm
Weight 273 g
Strength 22 kN

JUNIOR TH-05

CE
0120

Designed for 6-10 years old children (max 40 kg).

Material AL7075 + Polyester + Cordura
Size OSFA (18"-23") : Junior
Weight 394 g

01 ASCENDER STEP TAG-1003

Two buckle system allows quick size adjustment & useful to various situation.

Material	AL7075 + Nylon + Polyester
Size	min 25 cm ~ max 105 cm
Weight	134 g
Strength	300 kg

02 SQUARE DOUBLE LADDER 4+5 TAG-10-45

Square shape ladder plans for easy and stable step.

Material	AL7075 + Nylon
Size	4+5 step
Weight	464 g
Strength	300 kg

03 DOUBLE LADDER 4+5 TAG-07-45

Most favored item in aid and big-wall climbing.

Material	Nylon
Size	4+5 Step
Weight	456 g
Strength	300 kg

04 LADDER 5 STEP TAG-07-05

Best 5 step single ladder for Aid-Climbing.

Material	Nylon
Size	5 Step
Weight	262 g
Strength	300 kg

05 LADDER 4 STEP TAG-07-04

Best 4 step single ladder for Aid-Climbing.

Material	Nylon
Size	4 Step
Weight	225 g
Strength	300 kg

06 ALPINE LADDER 3 STEP TAG-07D-03

Single ladder, which has outstanding tensile strength and light weight by using dyneema webbing, also attached pouch for easy carry & storage.

Material	Dyneema + Nylon
Size	3 Step
Weight	78 g
Strength	800 kg

07 DOUBLE QUICK SECURE CHAIN TSC-02

Device for double self-secure.

Material	AL7075 + Nylon + Polyester
Size	min 25 cm ~ max 120 cm
Weight	216 g
Strength	300 kg

08 QUICK SECURE CHAIN TSC-01

Manufactured with solid two buckle which can make quick adjust the length by pulling adjustment handle and easy self-secure to belay object like piton.

Material	AL7075 + Nylon + Polyester
Size	min 25 cm ~ max 120 cm
Weight	110 g
Strength	300 kg

NEW DOUBLE GEAR RACK TAG-23

Designed for expert gear rack which can reduce device's weight efficiently.

Material	Tarpaulin + Nylon + Cordura
Size	Free
Weight	442 g

X-GEAR RACK TAG-04

Can carry both sides of shoulder with one strap and also prevent gear rack's lean.

Material	Nylon + Cordura
Size	Free
Weight	127 g

FIFI HOOK TAG-1007

Device for quick and easy fix / release body to belay object.

Material	AL7075 + Nylon
Size	18 cm
Weight	23 g
Strength	4 kN

SALINON TBP-CL-3501

Salinon is perfect 35L backpack for trekking and climbing.

Material	Nylon + Polyester
Size	35+5 L
Weight	Olive-1,318 g / Orange-1,380 g
Color	Olive, Orange

PATRON TBP-CL-4501

Patron is perfect 45L backpack for trekking and climbing.

Material	Nylon + Polyester
Size	45+5 L
Weight	1,610 g
Color	Burgundy, Blue

CITY 35 / ROCK 45 / TREK 65 / EXTREME 85 / EXPEDITION 105

TCBT-01 / TCBT-02 / TCBT-03 / TCBT-04 / TCBT-05

Very useful to indoor or outdoor gear(ropes, climbing gears, etc.) that carrying which manufactured variety line up (35L, 45L, 65L, 85L, 105L) for climbing, travel, business trip, athletics bag, expedition, etc.

Material	Poly 1800 D + Nylon
Size	35+4L / 45+5L / 65+5L / 85+7L / 105+7L
Weight	1,480 g / 1,600 g / 1,830 g / 2,000 g / 2,200 g

CHALK BAG TAG-19 / TAG-CB-01 / TAG-CB-02

Provide with chalk ball inside to help coat fingertips equally and prevent chalk dispersion.

Material	Polyester 600D / Nylon 210D / Nylon 210D
Weight	88 g / 42 g / 51 g

CHALK POT TAG-CP-01

Useful big size chalk bag for gym or bouldering.

Material	Polyester 600D
Size	25 x 20 x 22 mm
Weight	186 g
Color	Wine, Dark Green

MEGAN ICE GLOVES TAG-IG-01

Made with thinsulate for warmth and Hipora for waterproof, water-repellent, moisture permeability & windshield. Suitable for winter trekking and ice climbing.

Material	Goatskin
Size	S, M, L, XL
Weight	132 g (small size standard)
Color	Black-White

BUCK BELAY GLOVES TBG-1001
BILLY BELAY GLOVES TAG-BG-02
AID BELAY GLOVES TAG-BG-01

Material	Deerskin / Goatskin / Goatskin
Size	S, M, L, XL
Weight	96 g / 94 g / 92 g (small size standard)
Color	Brown / Tan / Black

3D SOX CLIMBING TA-CS-01

Specialized in climbing so it absorbs sweat to reduce odor and improve adhesion and friction, giving the skin a sense of unity.

Material	Polyester, nylon, etc
Size	S, M, L
Color	Pink, Blue, Orange

LIQUID CHALK 100 / 250
 TAG-LC-02 / TAG-LC-01

Material	MgCO3, Rosin, Alcohol
Capacity	100 ml / 250 ml

CLIMBING TAPE TAG-CT-01

Material	cotton 100%
Size	10m x 3.8cm

SQUEEZE CHALK BALL TAG-CKR-01
CHALK TAG-21-2

Material	Magnesium carbonate
Weight	60 g / 200 g

ROPE PROTECTOR TAG-RP-01

Material	Tarpaulin
Size	10 x 60 cm
Weight	126 g
